Submission platform: [EasyChair](#).

CALL FOR PAPERS

The **Third Location Privacy Workshop** (LPW 2021) provides a platform for original research and discussion on all technical aspects of privacy and security of location-based services. Location and mobility data are highly sensitive, as they can be used to infer a number of other personal information. Topics of interest include:

- Location privacy
- Security of location-aware mobile devices
- Privacy-enhancing technologies for location-based services
- Privacy and anonymity in (public) transportation systems
- Privacy in connected autonomous vehicles
- Security of smart mobility applications
- Privacy in location-aware social media
- Privacy in position-based advertising
- Malicious and pervasive tracking, de-anonymization
- Cryptographic protocols and schemes for location information
- Data structures for location information
- Security and reliability of positioning systems
- Location verification and authentication
- Location forensics
- Data protection techniques for regulatory (GDPR) compliance
- Location-based contact tracing

ORGANIZATION

Program Chairs:

Paolo Palmieri
University College Cork, Ireland

Luca Calderoni
University of Bologna, Italy

Program Committee Members:

Antoine Boutet
INSA de Lyon, France

Matthew Bradbury
Lancaster University, UK

Zekeriya Erkin
Delft University of Technology

Sébastien Gams
Université du Québec à Montréal

Prosanta Gope
University of Sheffield, UK

Kimmo Järvinen
University of Helsinki, Finland

Ioannis Krontiris
Huawei European Research Center

Jun Pang
University of Luxembourg, Luxembourg

Raúl Pardo
IT University of Copenhagen, Denmark

Constantinos Patsakis
University of Piraeus, Greece

Francesco Regazzoni
University of Lugano, Switzerland

Julián Salas Piñón
Universitat Oberta de Catalunya, Spain

George Theodorakopoulos
Cardiff University, UK

Rolando Trujillo Rasúa
Deakin University, Australia

Isabel Wagner
De Montfort University, UK
